**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- i. Claim 3 is vague and indefinite in that it is not clear what the claim encompasses. How is this "comparison" made without any corresponding data or evidence as what is "possible" for a diamond tooth?

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Felde (DE 42 00 420 A1).

In the various embodiments shown in Figs. 1-6, it appears that Felde discloses all the elements and method claimed including cutting tips (4) defining positive rake angles and layered combination of cubic nitride and tungsten carbide. See whole patent.

***Conclusion***

4. La Rue et al, Otani et al, Lach, JP 5-337734, and JP 4-2410, JP 5-285723 are cited as pertinent art.
